Work experience

Full Stack Engineer

OneDigital - Outsourcing – Remote Contractor

01/2020 - 07/2020

Freelancing via Remote Contract on this website <https://www.sms.com.mt/ferry>
The project was an Angular Invoicing App, developed with WEB API and Angular.
Completely Changed the way of invoicing of the system. Introduced some new fees to the cargo ships.

- .NET Core
- SQL Server
- Angular

Application Developer .NET

Foster + Partners – Architecture - London, UK

01/2019 - 12/2019

Developed and tested the main Intranet application which has relation with loads of small in-house developed applications written with different technologies.
Renewed, documented and presented a lot of outdated applications used for the organisation of the architects. For example, apps for booking meeting rooms, taxis travel, emails, etc. Agile methodology.

- .NET Core
- Unit/UI/Load Testing
- Umbraco
- SQL
- ASP.NET
- Azure
- Vue.js
- Selenium

.NET Developer

BGO Software - Outsourcing – Plovdiv, Bulgaria

06/2016 - 11/2018

Contributed to a web system for the health researches of the NHS. The application is used by the UK government to organise their documents and meetings related to the approval of scientific researches. Worked on the development of internal components and fixes of the project. Communicated every day with the NHS client team. Trained a Junior. Agile methodology.

- .NET
- ASP.NET
- SQL
- Design Patterns
- Ace Admin
- MS Tests

Reason for leaving: After 3 years in the company I didn't have any career progression and I knew that it will be the same after 2 more years. 2 more juniors arrived and I trained them. It was cheaper to work with the juniors instead of maintaining a senior.

06/2015 - 06/2016

.NET Developer

Comstream – Outsourcing – Plovdiv, Bulgaria

Developed installer web application for installation of Smart Home gadgets which optimizes the energy consumption in the people homes. Worked onsite from the client location in Sweden for 6 months. Trained a junior. Internet of Things devices integration. Agile methodology

- .NET
- ASP.NET
- Design Patterns
- SQL

•IoT

Reason for leaving: The company lost one of their big clients because of another outsourcing company and decided to close the office in Plovdiv.

.NET Developer

[BuCons](#) - Outsourcing - Remote

Developed, documented and delivered a lot of small applications like webshops, windows services, etc. The main application was a Desktop Win Forms application used for the administration of the scores and profiles of the students. Worked with the team of HSO from Switzerland remotely until the delivery. Trained a junior. Waterfall methodology.

01/2013 - 06/2015

- .NET
- ASP.NET
- DotNetNuke
- WPF
- Win Forms
- AWS
- SQL
- XBAP

Reason for leaving: I needed a higher salary to be able to pay my education at the University of Plovdiv, but the company couldn't offer me at this time. Meantime Comstream offered me almost twice and I accepted.

Education

10/2010 - 06/2014

Business IT - Bachelor Degree - the [University of Plovdiv](#) - Plovdiv

My education at the university was related to Programming and Economics. There was a consistency between the two study areas. I studied C++, C#, Java and other programming languages as well, I studied Banking, Finances, Insurance, Business English and Excel.

Languages

- **Bulgarian** (Native language)
- **English** (Fluent)
